EDUCATION

B.A. with Distinction in Computer Science & Math, GPA: 3.95 | *Amherst College* | Amherst, MA Aug 2021 – May 2025

- Relevant Coursework: AI, ML, Natural Language Processing, Data Structures, Algorithms, Security, Systems, Networks
- Activities: Association for Computing Machinery, AI in the Liberal Arts

Study Abroad Semester, GPA: 3.67 | *Sorbonne Sciences & Nanterre Université* | Paris, France Jan 2024 – May 2024

- Relevant Coursework: Cryptography

EXPERIENCE

Principal IT Engineer | *Gratz Pilates* | Philadelphia, PA Jun 2025 – Present

- Roll out Epicor ERP & HubSpot CRM as project manager & technical lead; guided the development of a HubSpot Private app crucial to the HubSpot integration, provisioning cloud & network resources, and collaborating with software engineers
- Built and deployed two custom Shopify apps using Liquid, React, and GraphQL API to handle \$20K+ worth of custom sales workflows; collaborated with the UX design team to improve the customer experience of the Shopify store
- Manage Microsoft 365 & Intune, deploying endpoint security, access controls, and resolving network performance issues

IT Specialist | *Amherst College* | Amherst, MA Sep 2022 – May 2025

- Automated ticket triage and resolved over 3K+ tickets, reducing average response time by 50%; enforced MFA rollout, led to ~80% fewer security incidents; imaged, deployed, and enrolled devices via JAMF Pro and Intune
- Investigated 20+ major outages of major software partners, leveraging developer tools such as Postman for debugging

Computer Science Tutor | *Amherst College* | Amherst, MA Sep 2022 – May 2025

- Mentored 10+ students weekly in Java OOP, data structures, and algorithmic problem-solving, increasing their GPA by ~30%

AI in the Liberal Arts Program Assistant | *Amherst College* | Amherst, MA Sep 2022 – May 2023

- Co-designed and co-developed two websites, wrote 50+ blogs on AI, established social media strategies, and coordinated six panels with AI experts with combined 5K+ attendance, boosted membership by 3x

PROJECTS

LLM Content Detection Pipeline | *Python, TensorFlow, Hugging Face Transformers*

- Prompt engineering and logit bias methods to watermark and detect GPT-3.5 Turbo outputs; fine-tuned RoBERTa into a classifier to detect watermarks in a model-agnostic setting, achieving 86% test-set accuracy

Madame Saville | *Python, Python, REST APIs, Pandas, scikit-learn*

- Flask-served Machine Learning model recommending optimal U.S. markets for business relocation using firmographics, rental data, and talent pool metrics; presented at Five College DataFest

Mammoth Rumble | *React.js, Solidity, TypeScript*

- A Web3 app leveraging smart contracts & blockchain to offer verifiable, tamper-proof election results to 100+ users

TuskForce | *Dart, Flutter SDK, Firebase, OAuth 2.0*

- A Minimum Viable Product for an online college marketplace capable of serving 5K+ students

SKILLS

Software Development | *Languages, Libraries, Frameworks*

- Python, Flask, Hugging Face Transformers, TypeScript, React.js, Node.js, Java, C++, Dart, Flutter

Infrastructure | *Databases, APIs, Cloud, Security*

- PostgreSQL, Firebase, Postman, REST, GraphQL, Git, AWS, Azure, Linux, Wireshark

CERTIFICATES

Microsoft Azure Fundamentals | *Microsoft*

- IaaS & PaaS, Entra ID (Azure AD), Azure Cosmos DB, Azure Container Services, IAM, RBAC

Structuring Machine Learning Projects | *DeepLearning.AI*

- MLOps, Transfer & Multi-task learning, avoidable bias, data mismatch

DevOps on AWS Specialization | *Amazon Web Services*

- IaC with AWS CloudFormation, AWS ECS & EKS, AWS CloudWatch, DynamoDB, Amazon Aurora

Google Cybersecurity Professional Certificate | *Google*

- OWASP Top 10, SIEM with Splunk, intrusion detection, incident response
